PROFILE

Result driven, client engaged, well-spoken and investigative Software Engineering Enthusiast who can think "out of the box". Strong in design and mix critical thinking abilities. Trained in Java, C#, and .NET with database investigation and plan. Skilled in developing business plans, requirements specifications, user documentation, and architectural systems research.

Strong written and verbal abilities. Interested in a challenging technical track career in an application development environment.

SUMMARY OF QUALIFICATIONS

- Currently enrolled in the Software Engineering Technology Advanced Diploma at Centennial College.
 - Incredible problem solver and quick learner by utilizing solid explanatory abilities and following point by point guidelines.
 - Work outstandingly freely or as a part of a group with solid group and client advantage social abilities.
 - Skilled at recognizing issues and giving assistance to various customers.
 - Solid written and verbal communication abilities, ready to hand-off specialized data to both specialized and non-specialized clients.
 - High vitality, adaptable, quick learner, and goal-oriented person.
-

TECHNICAL SKILLS

- Familiar with C#, Java, C, C++, MS-SQL Server, .NET, HTML, .CSS, Android, Java EE, JavaScript, TypeScript.
 - Skilled at Software testing and Software Security concepts.
 - Specialize in API Engineering and Cloud Computing.
 - Has fundamental knowledge of Computer Networks.
 - Practiced in object-oriented software design, user-oriented interface design.
 - Practiced in Data Warehouse and Data Mining in HCIS.
 - Specialize in agile approach in Object Oriented Software Engineering.
 - Skilled at database designing, designing ERD diagrams.
 - Exceptionally good at mathematical skills.
-

EXPERIENCE

Web Interface Design Project

April 2017

- Worked on a well-developed Web Design Project in SEMESTER 1 of Software Engineering Technology program.
- Project was an intense work on hyperlinks.
- Project was based on second-hand cars selling website which showed car details, price, and gallery.
- Scored an A+ in this project.

Uber Eats Database Design Project

July 2017- August 2017

- Worked on a database designing project in SEMESTER 2 of Software Engineering Technology program.
- Project was based on E-Commerce application which included making paper-prototype, an ERD diagram, representation of relationships in MS-ACCESS, and developing a SQL based database application.
- Scored an A+ in this project.

ByCentennial Object Oriented Software Technology Project

May 2017- December 2017

- Working on an object-oriented system designing project.
- Project includes selling and purchasing of college books through an online portal. The system enables students to sell their books, purchase E-Books, rent a book, donate a book, earn ByPoints, and order delivery as well.
- Worked in an enthusiastic group and scored an A+.

SEBO Software Development Project I

September 2018 – December 2017

- Working on a Software Development Project in which we are designing Business proposals and developing the system.
 - SEBO is like ByCentennial which an online store for second hand books.
 - The system uses a robot to filter search results and helps the user to find nearest seller for the product.
 - Aiming to develop this system fully by the end of this semester.
-

EDUCATION

Centennial College, Toronto, ON- GPA – 3.946/4.5

Relevant Courses includes:

- | | |
|--|--|
| • Programming 1 | • Software Engineering Technology |
| • Web Interface Design | • Introduction to Database Concepts |
| • Programming 2 | • Client-Side Web Development |
| • Software Engineering Methodologies 1 | • Advanced Database Concepts |
| • Java Programming | • Web Application Development |
| • Object Oriented Software Engineering | • Fundamentals of Computer Networks |
| • Programming 3 | • Mobile Application Development |
| • Software Testing and Quality Assurance | • Software Development Project I |
| • Java EE Programming | • API Engineering and Cloud Computing |
| • Software Security | • Data Warehouse and Data Mining in HCIS |
-

EXTRACURRICULAR ACTIVITIES

Volunteering

- Currently volunteering at Bhai Gurdas Ji Library at Gursikh Sabha Canada, Scarborough. Responsible for maintaining the library. Working with a database-based application to keep records of checked out and checked in books.
 - Participated in The Institute LeaderShape from Oct 22, 2017 to Oct 27, 2017.
 - Volunteered at Centennial College Orientation in Sept 2018. Chosen as a Team leader for consecutively 3 orientations in a row for Sept 2018 orientation. Managed around 1500 to 2000 students at the Sept 2018 orientation.
 - Currently CISA (Centennial International Student Ambassador). Working with a great team of CISA's to help the international students at Centennial College.
 - Currently Chairperson of CCSAI Software Engineering Club. Conducted many events at college level.
 - Held a volunteer position as a Publicity Director of CCSAI Sikh Student Club from January 2017 to April 2017.
